To Whom It May Concern:

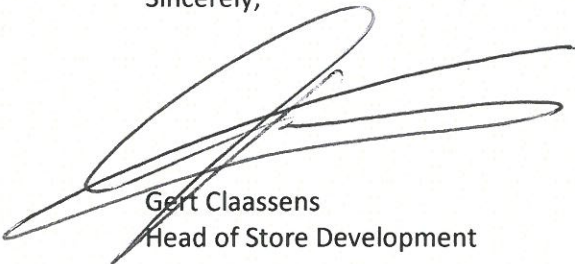

Re: Digifusion Signs

Tekkie Town has had the pleasure of working with Digifusion for the past six years on numerous new store projects, in particular exterior signage and internal merchandising.

Digifusion always demonstrates diligence and dedication to completing work in a timely, professional manner, while working within our budget. I have experienced no problems with any of our projects and new store openings. We have not had any surprises in the cost of completion, the scope of work or the finished product. Digifusion has been key to some innovative concept designs successfully implemented.

Digifusion has provided us with quality workmanship and excellent time frame management. I would highly recommend Eric and his team to anyone that needs his services.

Sincerely,

Gert Claassens
Head of Store Development
